

# Nairabet Market Types

## First Team to Score No Bet

This is predicting which team will score first in the match, there are only two options available under this market type.

**Home:** predicting that the home team will score first

**Away:** predicting that the away team will score first

Please note that if no team scores in the match, that's when the no bet will be applied, i.e if the match ends a goalless draw, the bet will be voided and stake returned.
