Multiscores

This allows you to predict the score line for a match from specific options

For Example;

1:0, 2:0 or 3:0 : predicting that the match will end 1:0, 2:0 or 3:0.

0:1, 0:2 or 0:3 : predicting that the match will end 0:1, 0:2 or 0:3.

2:3, 2:4, 3:4 or 1:5 : predicting that the match will end 2:3, 2:4, 3:4 or 1:5

Note that the score line varies depending on the game.

Other Home win: This is predicting that the match will end with the home team winning, however the score line will be different from the ones available.

Other Away win: This is predicting that the match will end with the away team winning; however the score line will be different from the ones available.

X: The match will end a draw.

Please note that the score to the left is the home team's goal(s) while that on the right is the away team's goal(s). For example 3:2, 3 goals were scored by the home team and 2 goals were scored by the away team.
