

# NairaBET Game Types

## Rugby

A rugby game may well look like semi-organized mayhem.

Bodies' crash, the ball is kicked and passed in ways that seem mysterious or even illegal to football fans, and plays with unfamiliar names like 'ruck', 'maul', and 'scrum' continuously form and break up without rhyme or reason.

There's no question that it looks rough out there on the field, yet the injury rate in rugby is about the same as in basketball.

And there are plenty of rules - yet you need only know some basic ones to understand the fundamentals of the game (it's rumored amongst rugby players that not even the referees know all the rules).
