

Nairabet Bet Combinations (Combo)

What does "HEINZ" mean?

A Heinz consists of 57 possible bet combinations involving selections in 6 different events.

The bet includes 15 doubles, 20 trebles, 15 fourfolds, 6 fivefolds and an accumulator.

A double is a combination of 2 events, treble is a combination of 3 events, a four-fold is a combination of 4 events, a five-fold is a combination of 5 events and an accumulator in this instance means a combination of all 6 events.

E.g You place a Heinz bet on games A,B, C, D, E and F.

Let's say your stake is N50, please note that your total stake will be $50 \times 57 = 2850$

This is so because your stake is charged separately for each possible combination and winnings are credited for each correct combination as well.
