

Nairabet Bet Combinations (Combo)

What is meant by "PATENT"?

A Patent consists of 7 possible bet combinations involving selections in 3 different events.

The bet includes 3 doubles, 3 singles and 1 treble.

A single is a selection of just 1 event, a double is a combination of 2 events and treble is a combination of 3 events.

E.g You place a patent bet on games A,B and C.

Let's say your stake is N50, please note that your total stake will be $50 \times 7 = 350$

This is so because your stake is charged separately for each possible combination and winnings are credited for each correct combination as well.

Your combinations would be arranged thus:

3 singles

$A \times 50 = \text{Winnings}$

$B \times 50 = \text{Winnings}$

$C \times 50 = \text{Winnings}$

3 doubles

$A*B \times 50 = \text{Winnings}$

$A*C \times 50 = \text{Winnings}$

$B*C \times 50 = \text{Winnings}$

1 Treble

$A*B*C \times 50 = \text{Winnings}$

Just one successful selection guarantees a return.
