

Nairabet Bet Combinations (Combo)

What is meant by "TRIXIE"?

A Trixie consists of 4 possible bet combinations involving selections in 3 different events.

The bet includes 3 doubles and 1 treble.

A double is a combination of 2 events and treble is a combination of 3 events.

E.g You place a trixie bet on games A,B and C.

Let's say your stake is N50, please note that your total stake will be $50 \times 4 = 200$

This is so because your stake is charged separately for each possible combination and winnings are credited for each correct combination as well.

Your combinations would be arranged thus:

3 doubles

$A*B \times 50 = \text{Winnings}$

$A*C \times 50 = \text{Winnings}$

$B*C \times 50 = \text{Winnings}$

1 Treble

$A*B*C \times 50 = \text{Winnings}$

You must get the prediction for at least 2 events correctly for you to get a return.
