What does "SIX-FOLD" mean?

A Six-fold bet is a kind of accumulator that works with 7 different event selections.

When you choose 7 different events and you make a choice of six-fold as accumulator, the system automatically arranges all 7 events in a number of places the combination of any 6 of the 7 events.

E.g

Games A, B, C, D, E, F and G

The system now arranges your six-folds thus

$A*B*C*D*E*F$ Odds product for all 6 selections multiplied by your stake =
winnings for this combination

$A*B*C*D*F*G$ Odds product for all 6 selections multiplied by your stake =
winnings for this combination

$A*B*C*E*F*G$ Odds product for all 6 selections multiplied by your stake =
winnings for this combination

$A*B*D*E*F*G$ Odds product for all 6 selections multiplied by your stake =
winnings for this combination

$A*C*D*E*F*G$ Odds product for all 6 selections multiplied by your stake =
winnings for this combination

$B*C*D*E*F*G$ Odds product for all 6 selections multiplied by your stake =
winnings for this combination

$B*C*D*E*F*G$ Odds product for all 6 selections multiplied by your stake =
winnings for this combination
